“The Harmony of Food & Wine”

We believe in complementing and contrasting the base flavours of our dishes with the finest selection of wines, and we do so with you in mind. We welcome you to Cicchetti and we invite you to embark on a taste of the senses....

Cicchetti is committed to offering an exhaustive wine list, carefully chosen by our General Manager and Sommelier Luca Giacomini.

Our focus has been on matching Australian and International wines to our carefully crafted food menu.

We want to celebrate and share with you the ultimate culinary experience, and we encourage you to ask for a recommendation on the best wine to accompany your dish.

The extensive selection of wines has been picked from the great wine producing regions of the world and includes well known and boutique producers. Rest assured each wine has been chosen based on its esteemed reputation from each region.

Throughout the list you will see a symbol informing you of the producers using Organic and Biodynamic farming techniques in their vineyards.

Our climate-controlled cellar ensures wines are kept in the best possible condition before being served at your table.

Our wine list is updated as often as possible, however your understanding is appreciated should a selection be unavailable. The Cicchetti team will be delighted to make comparable suggestions.

Our sommelier will advise you of any changes as they occur.

Organic & Biodynamic Symbol Key 

CONTENTS

Aperitif & Sherry	4

Classification of Italian Wines

I.G.T - Indicazione Geografica Tipica

Label may state: Vintage, Grape variety or colour, Wine Type (Frizzante, Amabile etc), Place name (Region, Province, Commune or range of hills)

The production of wines classified I.G.T is regulated in a way similar to that for D.O.C and D.O.C.G and whilst not as strict from a quality perspective, each I.G.T classification dictates a maximum permitted yield in hectolitres per hectare. The I.G.T classifications approved vary significantly in terms of geographical size and specificity, for example I.G.T's have been approved for whole regions such as Toscana and Veneto, and for subregions such as Maremma Toscana and Ravenna.

D.O.C – Denominazione D’Origine Controllata

Wines must be made from:

Approved grape varieties, Approved vineyards in clearly defined geographical zones.

Since 1990 wines must also meet standards on:

Appearance, Colour, Odour, Flavour, Minimum alcohol per volume, Total acidity, Net dry extract, Maximum permitted yields

(hls/ha), Minimum ageing requirements.

D.O.C.G – Denominazione D’Origine Controllata Garantita

Although D.O.C and D.O.C.G were established in 1963, the first D.O.C was not awarded until 1966 (Vernaccia di San Gimignano), and the first D.O.C.G not until 1980 (Brunello di Montalcino).

The controls on D.O.C.G wines are more rigid and imply higher standards than those applied to D.O.C wines, theoretically guaranteeing authenticity and quality. In the past, these have not always met and the classification has been the object of ridicule and derision. In recent years however, producers within certain individual D.O.C.G zones have sought, successfully, to turn this situation around by establishing local control bodies and ensuring wines that do not meet all the requirements are rejected.

The national D.O.C committee, in line with Law 164 have made the following four-point proposal to the ministry of Agriculture for wines to be promoted to D.O.C.G. The wine must be of proven excellence and reputation.

1. The wine must be of proven excellence and reputation.
2. A lower production of grapes per hectare with a maximum of 70 hls for white and 56 hls for reds.
3. Greater density of vines` per hectare (for new plantings).
4. Five years as a D.O.C wine
